Re: Comment Deadlines Established Regarding the LightSquared Technical
Working Group Report, IB Docket No. 11-109

Dear Secretary Dortch,

I am contacting you regarding a company named LightSquared, which is seeking a license to roll out a new wireless network across the country, including the Quad Cities. I believe high-speed wireless has become an essential technology for modern-day life, particularly for businesses that want to remain competitive. I further believe the industry is over concentrated among fewer and fewer players.

I hope you agree that one of our nation's top priorities should be making sure that broadband is accessible by businesses like ours, as well as every family and individual. And I hope you will support LightSquared's desire to invest in its new network, which will provide competition and choice in the broadband market.

I have read where the FCC has started a process to resolve issues surrounding LightSquared's plans and the GPS industry. Please support this process and work to remove the hurdles standing between LightSquared and its potential national broadband wireless network.

Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read 'Larry Toppert', with a stylized, flowing script.
